The clippers heads are compatible with models of other manufacturers.

PROFI LINE MINI (1800-1)

The new PROFI LINE MINI is a professional battery clipper to perfectly shear small animals as well as specific body parts of horses or cattle like their heads, tails or udders.

Thanks to the LI-ION-Battery-Technology the run-time of shearing amounts from 50 to 60 minutes.

Based on the loading time of the second battery equaling 45 minutes, a continuous shearing is done smoothly.

The machine is also available with a 230 Volt power supply unit for direct operation.

The scope of supply includes a robust storage case and a K 10 set of shearing blades. A high quality charger with additional charging unit for a second battery will be supplied together with the battery machine.

The clipping heads are compatible with models of other manufacturers.

- **Power supply:** 7,2 Volt DC - 35 Watt (battery)
230 Volt DC - 35 Watt (mains)
- **Cutting speed:** approx. 2.650 double strokes/min. (battery)
approx. 3.200 double strokes/min. (mains)
- **Measurements (LxBxH):** 204 x 49 x 40 mm
- **Noise level:** approx. 60 dB (A)
- **Weight:** 420 g (battery)
330 g (mains, without cable)
- **Matching clippers:** K 5; K 8,5; K 10; K 40; K 10 W
- **Run-time:** approx. 60 min.
- **Loading time:** approx. 45 min.
- **Cable length power supply unit:** 3 m
